Our grandson, J.P., turned 10 on January 25. He decided that, since he got everything he wanted for Christmas, he would ask his friends who were invited to his birthday party to bring a gift for a patient at the local Children's Hospital in Atlanta instead of something for him. The best part is that most of his friends showed up with 3 or 4 gifts for the patients. We were so proud of J.P. and his friends.

Glenn Julian

Grandson Jeremy Julian, who just completed Basic Training as an Infantryman in December, is shipping out for Kuwait, where he'll undergo additional training before being deployed with 1st Cav in Iraq.

On the day after Carolyn's passing, I opened an e-mail that someone had sent me. The gist of it is that when you get to heaven God will ask you some questions, sort of like a test. God won't ask what kind of car you drove; He will ask how many people you drove who did not have transportation. God won't ask the square footage of your house. He will ask how many people you welcomed into your house. He won't ask about the clothes you had in your closet, but He will ask how many you helped to clothe. God will not ask what your job title was. Instead He will ask if you performed your job to the best of your ability. God will not ask how many friends you had. He will ask how many people you befriended. He won't ask in what neighborhood you lived, but He will ask you how you treated your neighbors. He will not ask the color of your skin, but He will ask about the content of your character.

Then I began thinking as a retired teacher would think. Well Carolyn Rudisill Carter certainly passed this test with flying colors. She scored 100%. Her day by day life truly fit the pattern that Jesus sat down for each Christian. She walked daily with her Lord. This radiated in her fellowship with others. Her life meant spending time together, in worship, educational activities, service to others, and just having fun. She knew God's word "inside out and crooked", always obeyed God's commands, and lived a disciplined life. She was dedicated to Bible study and her daily prayer life. This was not only personal for Carolyn, but she had a passion to share this with others. She was a Sunday school teacher, she taught Disciple Bible Study, and met regularly with many other Bible study groups. She openly, honestly, and willingly shared her own spiritual journey and thus was able to help others. Personally, I have known Carolyn my entire life. We go to the same church. Since we were only five months apart in age, we were together in each class in Sunday school as we growing up. We both belonged to Christian Endeavor, we sang together in the different church choirs, we both attend annual conference for many years and roomed together; we were in Disciple Bible Study, and on and on. We attended junior high and high school together and both graduated in the class of 1957. Our children have corresponding ages so of course we were both involved in their church and school related activities at the same time, especially the Youth Fellowship.

As Pastor Clark Carr (Grace United Methodist Church- Hagerstown) said when he announced Carolyn's death to the church, "Though we grieve losing a sister in faith and friend, we rejoice knowing that our loss is heaven's gain and the joy she studied, preached, taught and dreamed of is now realized in the glory of her Savior's arms. God blessed Carolyn Carter with a fire of faithfulness that she never hesitated to share. ... We love you Carolyn —Joy to the World your Savior has come and you now see Him face to face." I miss my longtime, special friend, and the class of 1957 has lost a vital member that we all loved. We will miss her.

Kathy and I spent 1/20 thru 1/26 in Yellowstone (WY) with two other couples. We flew from Austin to Jackson Hole, WY, and then were bused to the Flagg Ranch, south of Old Faithful. From Flagg Ranch to Old Faithful we took a very old half-track --- tracks on the rear and skis on the front. We stayed at the brand new Snow Lodge, a few hundred feet away from Old Faithful.

Activities included: sightseeing, looking for wildlife, cross country skiing (hard work in this situation), snow shoeing (easy), and snowmobiling (my favorite).

There are about 3,500 to 4,000 bison in the Park, and they pretty much ruled where we could go and what we could do. Bison are the most dangerous animals there, including grizzlies. Male bison weigh about 1500 to 2000 lbs, and the females are about half this size. Fortunately in the winter (cold) the bison are nearly inert, trying to conserve energy and survive on their stored fat. (The bears were sleeping!)

There are about 400 wolves in the Park, and we saw none. We did see various species of deer, some elk, and a couple of foxes and bald eagles.

On our snowmobile trip we did about 110 miles and about 10 to 15 stops in 9 hours (dawn to dusk). We had to creep by a group of bison on the trail twice, within a few feet of those awesome horns.

This is a great adventure I would recommend you do if you have not already. There is a wide range of activities, and one does not have to get out and “work in the snow”. There are some elegant track-equipped vans and small buses that will take you to see most of the hundreds of volcanic features in the Park, including Old Faithful. [Click here for more pics.](#)
